RUSHEAD ^{BASS} MAX

Headphone Bass Amplifier

Manual

Your Pocket AMP!

OVERVIEW

Rushead Max Bass is a straight-forward, easy to use headphone amplifier for bass guitars. Inside you'll find the heat of the world's most famous amplifiers, each with a full range of timbre adjustment. From sheer clean natural sound, to toasty heavy overdrive tone, we bring them all together just for you.

Amps love effects. Rushead Max Bass also hooks you up with multi-mode, switchable modulation, accompanied with echo and reverb effect module to give your performance that A-list tone.

A special designed lithium battery is for powering the amp and bringing you over five hours of continuous use charged by USB. An AUX IN jack bestows upon you the right to jam on your favorite tracks.

MOD MODULE

This module combines 3 meticulously selected bass modulation effects in 1.

MOD: Controls the effect amount

TYPE toggle: Selects effect types:

- FLOW:** Produces a pure, flowing chorus effect
- TREM:** Produces a classic optical tremolo sound
- DEEP:** Produces an ocean-esque flanger tone

AMP MODULE

This module combines 3 bass amplifier types in 1, ranging from clean to high gain.

LEVEL: Controls the output volume

TONE: Controls the brightness

GAIN: Controls the gain

TYPE toggle: Selects amp types:

- CL:** Based on vintage SVT style amps, providing a natural, thick clean sound
- OD:** Based on legendary US style amps AGS tone, providing a warm, fuzzy overdrive sound
- DIST:** Based on famous Finnish amps, providing a grainy, modern distorted sound

AMBIENT MODULE

This module combines reverb and echo effects, great for adding sweet layers to your bass solos.

AMBIENT: Controls the effect amount

TYPE toggle: Selects effect types:

- ECHO:** Produces a warm, natural analog echo effect
- REVERB:** Simulates the clean, acoustic delay sound in a performance hall
- ECHOVERB:** Combines echo and reverb in one
